Interventional Cardiology Journal. Interv
Cardiol J Vol.6 No.2:e90

Introduction

Interventional Cardiology is Imedpub publisher hybrid, peer-reviewed journal that considers articles concerned basic research on cardiology. This is the journal where cardiologists publish. The journal covers wide range of topics in this discipline and creates a platform for the authors to contribute towards the advancement in Interventional Cardiology.

Journal highlights

Percutaneous Coronary Interventions, Invasive Cardiology, Diagnostic Cardiology, Cardiology Procedures, Implantable Cardioverter-Defibrillator, Heart Ablation, Cardiology Diseases, Atherosclerosis, Echocardiography, etc.

Coronary thrombectomy

Coronary thrombectomy deals with the removal of blood clot in heart muscle.

Ischemic heart diseases

Ischemic heart disease is defined as the condition where the blood supply to the heart is reduced due to narrowing of blood vessels

Myocardial infarction

Myocardial infarction is defined as the cardiovascular disease which deals with insufficient blood supply and oxygen to heart, then heart muscle gets damaged.

Echocardiography

Echocardiography is defined as a branch which deals with study of heart anatomy.

Heart Ablation

Heart ablation deals with the treatment of abnormal heart beats.

Cardiology Procedures

There are different cardiology procedures which diagnose cardiovascular diseases. Electrocardiogram- It is used for measuring the electrical activity of heart. Echocardiogram- It is used to create an image of heart with high frequency sound. Cardiovascular magnetic resonance – It provides a detailed image of heart that can be used to examine heart anatomy as well as its function.

Author guidelines for Manuscript Submission

Interventional cardiology is a peer reviewed scholarly open access journal that accepts research articles, review articles, case studies and short communication in the areas of Interventional Cardiology, Cardioscience etc.

Introduction of editor in chief

Dr. Osmar Antonio Centurion, Professor of Medicine, Faculty of Medical Sciences. He is Professor of Medicine at the School of Medical Sciences from the Asuncion National University in Asunción, Paraguay. He is the Founding Member of Sociedad Latinoamericana de Cardiología Intervencionista (SOLACI). Author of more than 200 medical articles published in peer reviewed American, European and Japanese journals in cardiology.

Having active Editorial board members boosts journal statistics among Research scholars/Students/ Scientists/Healthcare professionals. Aims for genuine review process to be carried out, with a great pleasure I would like to express my grat.itude towards active potential editorial members Karan Sud, Toralben Patel, Dr. Rajesh Rajan, Dr. Fabio Villa, Dr. Xi Chen, Dr. Gabriele Cioni, Dr. Salah A. Mohamed, Dr. Rabindra Nath Das, Dr. Guy H Fontaine, Marco T Castagna, Dr. Konstantinos Lampropoulos, Sandeep Kumar Krishnan, Seshasayee Narasimhan, Dr. Shahad AL-yousif, Dr. Dome Andras Dezszi, Dr. Macovei Liviu, Sanjay Kumar, Elia De Maria, Dr. Gaetano Santulli, EMMANOUIL I. SKALIDIS, Dr. Sandeep Kumar Kar.

Focus

Interventional Cardiology Journal is an International peer-reviewed journal that considers articles concerned with any aspect of Cardiology such as Cardiac pain, Cardiac surgery as well as basic research on Cardiology.

Stepping ahead

Journal is aiming towards recently evolved Catheter ablation, cardiac arrhythmias in pregnancy, fluoroscopy, Intrastent Coronary Pseudoaneurysm, Outcomes after implantation of the accurate neo and Portico transcatheter heart valves.

Using contacting through phones, Emails, Twitter, LinkedIn, Facebook, Instagram

Maintaining frequency of articles

Acknowledgment

With a great pleasure, I would like to express my happiness towards our Author, Editors, Reviewers, with the aim to disseminate advanced knowledge all over the globe.

Finally, Interventional Cardiology Journal sincerely appreciates each member for their valuable service in this Publication process. We always look forward to work with many young scientists across the globe.
